Rio de Janeiro, Brazil | +55 (21) 99573-7377 | vinicius.felippe@hotmail.com | [linkedin.com/in/vinicius-rocha-b5b41515b](https://www.linkedin.com/in/vinicius-rocha-b5b41515b)

PROFESSIONAL SUMMARY

Finance and Accounting professional with 4+ years of experience in multinational operations and a career focus on SAP Finance functional analysis. Currently a Senior Accounting Assistant at DOF, combining hands-on finance process knowledge with SAP S/4HANA FI/CO functional training. Experienced in month-end close, General Ledger, AP/AR, intercompany, allocations, cost centers, accounting classifications, ERP transaction flows, data validation, and process improvement. Comfortable translating accounting requirements into structured ERP logic and working across Finance, Operations, Procurement, Cost Control, international teams, and shared services.

CORE COMPETENCIES

SAP S/4HANA FI/CO | Financial Accounting (FI) | Controlling (CO) | FI-GL | FI-AP | FI-AR | Cost Centers | Profit Centers | Internal Orders | Master Data Concepts | Chart of Accounts | FI/MM/SD Integration | ERP Process Analysis | Month-End Close | Intercompany | Allocations | Functional Troubleshooting | Documentation

PROFESSIONAL EXPERIENCE

DOF Group | Senior Accounting Assistant

Rio de Janeiro, Brazil | Jul 2026 - Present

- Analyze ERP transaction flows and mapping rules between operational/source systems, TOTVS, and Unit4, helping identify master-data, validation, and accounting-classification issues and supporting corrective actions.
- Perform finance-process analysis across AP, AR, GL, intercompany, billing, taxes, accruals, provisions, and closing, providing a strong business-process foundation for ERP functional support.
- Investigate ERP validation and posting issues by tracing source data, accounting classifications, supplier/customer information, cost objects, and workflow status across systems.
- Analyze and reconcile intercompany transactions, including cost allocations, reclassifications, balance discrepancies, and transactions between local and international group entities.
- Support month-end closing activities, including accruals, provisions, reclassifications, balance reconciliations, and accounting adjustments.
- Work with cost centers, internal orders/WBS, account classifications, and allocation logic to support accurate posting and financial reporting across offshore and Joint Venture operations.
- Partner with Operations, Cost Control, Procurement, Finance, and international teams to improve financial accuracy, internal controls, and operational cost recovery.

DOF Group | Accounting Assistant

Rio de Janeiro, Brazil | May 2023 - Jun 2026

- Supported Accounts Payable and Accounts Receivable processes, including invoice processing, billing, accounting classification, payment workflows, and customer balance follow-up.
- Prepared accounting entries, accruals, provisions, cost allocations, and account reconciliations as part of monthly closing activities.
- Analyzed costs, revenues, investments, and operating expenses, validating CAPEX/OPEX classifications and allocations together with operational teams.
- Supported financial activities related to offshore vessel and Joint Venture operations, including supplier invoices, intercompany transactions, and operational cost allocation.

Norskan Offshore | Accounting Assistant JR

Rio de Janeiro, Brazil | May 2022 - Apr 2023

- Supported accounting routines, account reconciliations, month-end closing, financial reporting, and financial data validation.
- Worked with accounting teams to improve reporting accuracy, documentation quality, and process efficiency.

EDUCATION

MBA in Finance and Controlling - USP/ESALQ | Expected 2026

Bachelor's Degree in Accounting - Centro Universitario Carioca (UNICARIOCA) | 2023
